

# Liv Kristine, You take my higher

You take my higher  
Higher than I have ever been  
You take me higher  
I'm loaded with your energy  
You take me higher  
Higher than I have ever been  
It's like the sunshine  
I'm loaded with your energy  
Everybody wants the sun to come out  
And everybody wears the sun in their faces  
I love to be amazingly free  
Everybody wants to swim in the sea  
And everybody loves the breeze in their faces  
Flirt with me, it sets you free  
You take my higher  
Higher than I have ever been  
You take me higher  
I'm loaded with your energy  
You take me higher  
Higher than I have ever been  
It's like the sunshine  
I'm loaded with your energy  
You take my higher  
Higher than I have ever been
