

Live, Lighthouse

The lighthouse lost its light on her a long time ago
She got so used to it, this long and winding road
I'll never ever let you go, oh
I can't believe she whispered to me
I don't wanna breathe
Oh no

This ship of fools sails west by night-time and by day
Circumnavigates her globe like a bullet gone astray
Come on home baby, where it's safe
I can't believe she whispered to me
I don't wanna breathe
I don't wanna breathe

Even if you drink from the chalice of cheap escape and fade away
I'll never ever let you go
I can't believe she whispered to me
I don't wanna breathe
I don't wanna breathe
She whispered to me
Now I can't believe she whispered to me
Oh lord, lord, lord
