

# Live, Overcome

even now the world is bleedin' but feelin' just fine all numb  
in our castle where we're always free to choose never free enough  
to find i wish somethin' would break cuz we're runnin' out of time

and i am overcome i am overcome holy water in my lungs i am overcome

these women in the street pullin' out their hair my master's  
in the yard givin' light to the unaware this plastic little place  
is just a step amongst the stairs

and i am overcome i am overcome baby holy water in my lungs i am overcome

so drive me out out to that open field turn the ignition off  
and spin around your help is here but i'm parked in this open space  
blockin' the gates of love

i am overcome i am overcome holy water in my lungs i am overcome

beautiful drowning this beautiful drowning this holy water  
this holy water is in my lungs

and i am overcome i am overcome i am overcome i am overcome
