

Live, Ride

In the east, they can meditate
They can recreate the sound of OM and bring us home
I think I'll go there someday
Maybe for a holiday
Maybe just light a candle
Take a seat for the ride
And you don't need no money to fly, to truly fly away
And you don't need no car to truly, truly ride, to truly ride away

In the west, we think we're the best
We've shown the whole wide world that money is all we care for now
Someday the scientists will see
There's no such thing as gravity
They'll all just light a candle
Take a seat for the ride

And you don't need no money to fly, to truly fly away
And you don't need no car to truly, truly ride, to truly ride away

As you ascend in silence, all doubt behind thee
You reach the summit, my friend, and find your destiny, yeah
Oh yeah

And you don't need no money to fly, to truly fly away
And you don't need no car to truly, truly ride, to truly ride away, yeah

And you don't need no money to fly, to truly fly away, yeah
And you don't need no car to truly, truly ride, to truly ride away
To truly ride
To truly ride
To truly ride
To truly ride
Oh yeah, ride
