

# Live, Waitress

come on baby leave some change behind  
she was a bitch, but I don't care  
she brought our food out on time  
and wore a funky barrette in her hair

come on baby leave some change behind  
she was a bitch but good enough  
to leave some change,  
everybody's good enough for some change

the girl's got family  
she needs cash to buy aspirin for her pain,  
everybody's good enough for some change

we all get the flu,  
we all get aids  
we've got to stick together after all,  
everybody's good enough for some change,  
**SOME FUCKING CHANGE!!!**
