

# Living Colour, Someone Like You

Do you remember  
The time of laughter  
Children playing, life was so sweet  
Before our city forgot us  
And let the druglord take our street  
Pacify me politician  
Pacify me with your lies  
Blind to the people suffering  
Deaf to the children's cries  
But I know what to do  
With someone like you  
Police  
They chased my brother  
Policeman licensed to kill  
Oh how I miss my brother  
Good shoes are so hard to fill  
Policeman are you happy?  
You snuffed a medical student out  
Maybe he could have changed the world  
I guess we'll never find out  
But I know what to do  
With someone like you  
I know what to do  
With someone like you  
It's never too late to change your ways  
It's never too late to change your ways  
Too young  
Gave her body  
She was afraid of being alone  
One baby having another  
Sweet baby wants to be grown  
But there's an angel on your shoulder  
Always speaking to your soul  
Listen and your heart will be glad  
You'll never have to be alone  
'Cause I know what to do  
With someone like you  
I know what to do  
With someone like you  
I know what to do  
With someone like you  
I know what to do
