

# Living Things, Let It Rain

Babe

Why are you still inside  
Why don't you come outside  
Relieve your pain

Time

We've been killing time

But I don't mind

The city's got me down

And our glory days are over

Yeah our glory days are gone

Let it rain, let it rain

I know coming down can hurt

And tonight is the night

Where we leave it all behind

Cuz I don't believe that they can wait

The sky's going black, lets celebrate

Let it rain, let it rain

I know coming down can hurt

Lies

We've been telling lies

One more's around

In this sleepless town

And our glory days are over

Yeah our glory days are gone

Let it rain, let it rain

I know coming down can hurt

And tonight is the night

Where we leave it all behind

Cuz I don't believe that they can wait

The sky's going black, let's celebrate

Let it rain, let it rain

I know coming down can hurt

And our glory days are over

Yeah our glory days are gone

Let it rain, let it rain

I know coming down can hurt

And tonight is the night

Where we leave it all behind

Cuz I don't believe that they can wait

The sky's going black, let's celebrate

Let it rain, let it rain

I know coming down can hurt
