

# LIZ PHAIR, Bionic Eyes

I love my bionic eyes  
I love my crystal vision  
If there's anybody out there  
Baby I'm not gonna miss 'em

I watch the years go by  
These are the same old guys I never had any use for  
Beyond the feeling of pleasure  
Or the thrill of the fight

I scored again last night  
I said thanks for the drinks, nice party  
Then I turned out the light

I've got timing and attitude  
That can get to the baddest dude  
That's when I hypnotize them  
With my bionic eyes

As I got older I had to step out of the lines  
And make up my own mind  
As I got light as a feather they got stiff as a board  
I can't feel any more, but I can fake it forever

It's easy in the beginning  
When I can dazzle them  
All night  
Make 'em do what you wan' 'em to  
Get 'em running after you  
It's just the same old guys  
Wearing the same old ties

As I got older I had to step out of the lines  
And make up my own mind  
As I got light as a feather they got stiff as a board  
I can't feel any more, but I can fake it forever

I love my bionic eyes  
I love my bionic eyes  
I love my bionic eyes

If there's a parallel nation  
And I'm a secret weapon  
Show me a man you cannot break  
And I will show you heaven

As I got older I had to step out of the lines  
And make up my own mind  
As I got light as a feather they got stiff as a board  
I can't feel any more, but I can fake it forever
