

# LIZ PHAIR, Love Is Nothing

You thought I was something from afar  
You thought I'd totally excite you  
I guess it's just another thing to stand up close and ignite you  
Love is nothing, nothing, nothing like they say  
You gotta pick up the little pieces everyday  
You were telling me the friends we have in common  
By the time I figured it out you were yawning  
Love is nothing, nothing, nothing like they say  
You gotta get up and work the people everyday  
And I thought,  
"Who am I?"  
"Who's this guy?"  
"Would I lie to make the day blur into the night?"  
Love is nothing, nothing, nothing like they say  
You gotta pick up the little pieces everyday  
Love is nothing, nothing, nothing like they say  
You gotta get up and work the people everyday
