LIZ PHAIR, Take A Look

I don't know what you're after Wannna know all the details of my disaster Like an accident on the side of the road When you're driving past slow but there's nothing to see here

Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look

I'm some kind of freak now and You'll never see me the same What's all the fuss about? Are you sure you wanna find out? Cause once you know the truth You might wish you'd walked away

Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look

What if I'm not able To put my cards on the table? And would it liberate you If you knew what I knew?

It's been over a year now and I never saw him again The facts and the fiction Collide as the bodies untangle And the traffic moves on like it did

Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look

Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look Wanna take a look, take a look
