

LIZ PHAIR, White Chocolate Space Egg

Orange and Blue
Green and pink
I see you in everything

Don't need money, don't need wine
I got better ways to spend my time

I'll see you around, every hollow has its favorite sound
and my heart is holding on

Purple, yellow, reddish brown
Once I felt you I couldn't lay you down.
Don't be shy, baby, don't be careful with me
Let it go, let it soak me down.

I'll see you around every hollow has its favorite sound
every rock and tree and leaf abound with your face

Trace....

Don't tell me I've been wrong,
Don't tell me all the magic's gone

I'll see you around every hollow has its favorite sound
I'll see you around every corner has its favorite clown
I'll see you around
I'll see you around
I'll see you around
I'll see you around
I'll see you
I'll see you
