

# Lloyd Banks, Help&nbsp;

(feat. Keri Hilson)

[Intro: Lloyd Banks] (Keri Hilson)  
(G-Unit) Uh! A one two, a one two  
Uh! A one two, a one two  
(Yeah) Uh! A one two, a one two  
(Oooooohhh!!!) Uh!

[Verse 1: Lloyd Banks]  
Excuse me miss, you must be some kind of a model  
Enough to make a shopper run out of the column  
Enough to make a weak nigga go mano y mano  
Guess what you strong as rum out of the bottle  
God bless you when he made me  
I mean he blessed me when he made you I got a little game to  
They know me everywhere I go that's what fame do  
Where we can get it on the low what's your name boo?  
You stuck in your ways but I know how to change you  
Arrange you tell you things like your my angel  
There's no rules when it comes to this, write down your number miss  
They call me Banks, my government is Chris  
They feel me in the burbs, love me in the bricks  
Four inch whips, on a buggy six  
First class trips, and the bubbly's Cris  
I work so hard to live like this

[Chorus: Keri Hilson]  
My past make me so weak but, you make me stronger  
Cause everything was upside down, now I'm right back where I belong  
Help I think Cupid got me, shock me all over my body  
I think I'm losin my cool, so I'm doin things I don't do

[Verse 2: Lloyd Banks]  
Yeah, I got it hop in the ride so I could holla  
My favorite girl outside of my Impala  
I ain't 'gon sale you a dream I don't gotta  
You could walk around in the street with no problems  
I pick up all the G that he speaks so don't bother  
The innocent role ain't workin work harder  
I ain't tryin to lock you down I'm no father  
But maybe we can go for it if you just listen  
It's hard as hell for a man in my position  
They pickin your girl out you gotta know the difference  
I wonder if it's even in one in existence  
Enough to keep my attention to go the distance  
And I'm have to look hard to find a better one  
Cause you sex is a 187 'hon  
You get a nigga doin shit I ain't never done  
So now even when I'm on tour I let her come

[Chorus: Keri Hilson]  
My past make me so weak but, you make me stronger  
Cause everything was upside down, now I'm right back where I belong  
Help I think Cupid got me, shock me all over my body  
I think I'm losin my cool, so I'm doin things I don't do

[Bridge: Keri Hilson (Lloyd Banks)]  
Your not the ones like I'm used to, I see us happy in our future  
I'm givin you all I have, my heart, my soul, my laugh  
Cause you are the only thing I need  
(I could be everything and more give you the feelin you can't ignore)  
Whoa oooh oh!!!

[Chorus: Keri Hilson]

My past make me so weak but, you make me stronger  
Cause everything was upside down, now I'm right back where I belong  
Help I think Cupid got me, shock me all over my body  
I think I'm losin my cool, so I'm doin things I don't do

[Outro: Keri Hilson]
