

# Lloyd Banks, Take A Good Look

[Chorus x1]

Nigga take a good look at this  
Princess cuts on my neck and my wrist  
Them other niggaz can't do it like this  
I love my niggaz I don't love no bitch  
I get tha pussy everywhere I go  
And every nigga around me got dough  
Give me a box of cigars and hydro  
G-UNIT-CLICK-YOU-KNOW!!

Ima show you niggaz how to leave an impression my flow is amazin'  
?? ?? this I belong with the cavemen  
See most niggaz round' here go in the pavement  
That's why I smoke so much I don't know where today went  
They fascinated by the way my show on the stage went  
Bitch I'm a perfect way to blow an engagement  
To stop me you gotta put teams and diamonds on me  
My money long, I need machines to count it for me  
I'm glad, they want us dead  
But keep runnin' ya mouth and go home with more slices than a bag a' Wonderbread  
I'm America's nightmare: Young, black, and chipped up  
Plannin' to put more than one plat-num hit up  
Standin around where tha bums at and gripped up  
Layin in tha town where they pump crack and crippled up  
See everybody knows you stole that tone  
Sold a bunch a' records now you scared to go back home (OOHH!!)

[Chorus x1]

You know tha kid stay with his Nike's new, tha throwback is light blue  
Came out around the time, my grandmother graduated high school  
Most these rap niggaz softer than Ja Rule  
And they've been in and out as many walkmans as I do  
Take time, to figure out who's walkin' beside you  
Cause this sonic can feel like a fork when inside you  
You mad, cause ya bitch like us  
And all of my records get thumbs up, like I'm ridin' by hitchikers  
Stumblin' out the G4, cause that's how tha stars land  
Shit I prolly been through more trees than Tarzan  
On tha road, tha hoes take a look at tha cars and  
It's back tha hotel: titties and bras man  
Tha new "STRAP DON"  
You might call me ignorant, but if you cow you belong in tha Phat Farm  
When tha lights get bigger I act calm  
Prolly cause Im a light skinned nigga with black arms (FUCKA!!)

[Chorus x1]
