

Lloyd, I Can Change Your Life

I know what you're used to
And I can show you something that's better (see girl I know)
He used to abuse you
He only used to get on my level
I can change your life, if you let me
I can do it, I know just what you need
I can change your life, I can make you happy
Girl if you let me, I'll make your puzzle complete
I can change your life
I know just what you needed
Let me provide it
There's no need to fight this feeling
Cause as long as I'm breathing
You can believe it
Throw it down on everything I love
I wanna be, I wanna be ehh
I wanna be, I wanna be ehh
Infinite, permanent, perfect for you
I can change your life, if you let me
I can do it, I know just what you need
I can change your life, I can make you happy
Girl if you let me, I'll make your puzzle complete
I can change your life
