(verse 1:)

I know its hot
Cause my guru already laced it
Aint no replacement
Its hot up in the basement
See this the south
Comin crunker than your average
Makes you wanna grab it
Cause you gotta have it
See Dawg Child will make it very spiced n Tasty
You really cant help but to move your body crazy
You feelin suntin n I know you jus cant help it
And I know what ur relievin

(hook:)

Thats why
You'll never ever meet anotha playa
As fly
Thats the one with the dubbs on slant
Thats right
So pretty mama please dont let your chance
Pass by
Cause shawty you jus dont know
That I
Have never ever met anotha girl
That fine
Starin so hard I didnt even see the
Stop sign
Hit the ground so hard made me
Realize
That you need to be wit me

(chorus:)

Once you get to know me
You will put me
Your in a trance baby
Promise that you aint know no one like me
That puts you in a trance like me
You keep on wantin more n more to please me
Your in a trance baby
You wont stop thinkin what has come over me
Your in a trance crazy

Trance

Ill put you in a trance
Ill make you wanna dance
Ill leave you in a trance

(verse 2:)

Now I know that your used to somethin basic
Somethin new
Jus face it
Thats how yo time is wasted
And you should do whatever I do
Baby I can show you
How to make your dreams true
And thats why
I look dead into your eyes
And see that you been searchin
Cause your tired of hurtin
So baby
Wont you just come and roll wit me
I got all that you need
Put your trust in me

(hook and chorus)
