

Lo Fidelity Allstars, Kasparov's Revenge

Scraping the skylines with hypnotic observations
Swooping and surfing over lyrical substations
Embrace the flame again and again
Like passion and pain hand in hand with each other.
Sliding, deeper I'm gliding
Shooting.
I am deeper than you.
Bombs wired to my chest I'll lace the building with bugs
Cos you'll always be behind me slip-streaming my buzz
See me rocket off into the ozone layer
Spiralling off into the ether
Slip-streaming our buzz (X4)
Into the ether
Sliding, deeper I'm gliding
Shooting
I am deeper than you
Into the ether
