

# Lobo, A Day In The Life Of A Love

(Johnny Slate / Larry Henley / Jim Hurt)

Hey baby, you're a beautiful lady  
But I guess that you know it  
You sure turn my head around  
And I'm sure that I show it

If you'll take the chance on romance  
When this dance is over  
Maybe we could slide away  
To a quieter place

This could be a day in the life of a love  
That could last forever  
How could we ever know until we try  
This could be a day in the life of a love  
That could last forever  
We'll surely make it last till morning light

What cha saw baby  
Does it so to crazy  
Well I just had to say it  
When my heart speaks to me  
I have to obey it

Why don't you say yes  
And we'll make the best  
Of the rest of the night

But then again  
It might never end
