

# Lobo, Asian Moon

(Billy Aerts & Kent LaVoie)

On the advise of my friends  
I took some time to get away  
Over the oceans to forget her  
And think a few days

How could I have known  
How fast her memory would fade  
But I got caught in the magic  
Of a night so far away

Must be the light of the Asian Moon  
Could be a song an old Asian Tune  
Lovely dark haired ladies and the words they say  
A late night sail on a moonlit bay  
Could be the stars in the Asian Sky  
That got me flying and feelin' so high  
I never thought the hurt would heal so soon  
Must be the light of the Asian Moon

That old moon cleared my mind  
'Bout what's important to me  
Now I want to live and love  
And laugh that's all I need
