

Lobo, Cheating On You

(Lobo / Billy Aerts)

Over and over it's all I've had on my mind
Baby baby I've been lying to you all of this time
He's not what you think he is and I'm sharing the blame
Cause I've known all of this time he was playing the game

He's been cheating on you
He's been cheating on you
It's tearing me in two
That he's been cheating on you

Waiting and hoping that someone else would tell you
So afraid if I told you you might not think it was true
Cause you know how much I have loved you for so long
And I was going out of my head and I couldn't hold out any longer
