

# Lobo, He's Right - Damn Him

(Lobo)

I've seen you together every place  
I've seen the smile upon your face  
I've seen the magic of his charm  
The way he gently takes your arm

And he's right - damn him  
He's so right - damn him  
He stands his ground  
But then he gives it  
And he's so right

He may not dress the way he should  
But he treats you like I wish I could  
Next to you he's like a frog  
But he is loyal as a dog
