

# Lobo, Let Me Leave You

(Kent LaVoie / Billy Aerts)

What you came here to say,  
You said  
The time you had alone got it  
All straight in your head  
This is the time you said you'd  
Choose  
I guess I loose

Now the truth has settled in  
My heart  
To watch you walk away is  
Gonna be the hardest part  
So don't just turn around  
And leave  
Do one last thing for me

Please let me leave you  
What difference would it  
Make no one will ever know  
Please let me leave you  
Then I won't have to watch you go

It's gonna hurt us both I know  
But at least you've got  
Somewhere else to go  
When you leave I'll be alone,  
Just alone
