

Lobo, Like Love's Brand New

(Kent LaVoie)

There's nothing like the day love begins
You can't wait to be with her again
The same old things seem brand new
Cause you know she wants to be with you
Love's brand new

You hold her hand or touch her face
You can feel your heart begin to race
You try to think your mind leaves you
To be with her is all you want to do
Love's brand new

If you can keep the feeling that you feel today
Not let it slip away into the night
When you light the fire of love build it right
Keep it burning bright
Keep the feeling with you
Like love's brand new

Time goes by you still feel the thrill
There's comfort in knowing you always will
With ups and downs in everything you do
The first day in love stays alive in you
Like love's brand new
