

# Lobo, We Can Make It

(Lobo)

Well I have known you  
A long long time you  
You have been driving me  
Out of my mind cause I  
I look in your eyes  
And I know what I see  
I know that you feel  
Just like me

But you will not let  
Yourself go because  
You are confused you just  
You just do not know you say  
To yourself this just  
Could not be real  
Believe me girl I know  
Just how you feel

We can make it  
Some kinda love  
The world can't fake it  
Our kind of love  
If you let yourself do  
What your heart keeps telling you  
Oh we can make it  
Some kind of love  
We can make it

A year from now you will  
Laugh at yourself just for  
Fighting off what you  
Just could not help  
You will look back  
And you'll love what you see  
you say that our love  
It just just had to be

Oh girl we can make it  
Some kind of love  
Yes girl we can make it  
Some kind of love  
You and me we can make it  
Some kind of love
