

# Lobo, We'll Make It... I Know We Will

(Kent LaVoie)

Come on girl get aboard this bus  
It's pretty crowded but there's room for us  
It seems everybody here sees the beckoning light  
Come on girl we'll be there Thursday night

The other side of the mountain  
The greener side of the hill  
A world is there for us to share  
We'll make it I know we will

So come on girl get aboard this train  
It's just about time we came out of the rain  
We'll be stopping off in Lodi  
But we won't be staying long  
Come on girl we're going where we belong

So come on girl get aboard this dream  
Only you know what it really means  
When we get there you'll wash your hair  
And let it dry in the sun  
At the edge of the stream watching water run
