

Lobo, With A Love Like Ours

(Dennis Linde / Don Devaney)

We just seem to go together
We just seem to hit it off
We might just go on forever
I see no reason for us to stop

With a love like ours
Everything comes easy
Everything comes easy
With a love like ours
With a love like ours
We're sitting pretty
We can have life anyway we want it
With a love like ours

Sometimes with a man and a woman
Everything they do is right
I sure like whatever we're doin'
Cause it shows in our love every night
