

Lobo, You Are My Need

(Kent LaVoie / Billy Aerts / Paul Overstreet)

Sometimes the sunshine works to clear my mind
Ridin' down a country road I start to think about
The things I could live without to lighten up my load

Of all the things I could stand to lose
Losing you is the one thing I could never do

You are my need
The reason for every breath that I breathe
My heart has a hunger
That only your love can feed
You are my need - you are my need

When I see you sitting there
Wind blowin' in your hair
I'm lookin' at the truth
There could never be any better place for me
Than right here with you

Let the world go on and pass me by
I've got everything I'll ever need in my life
