

Local H, Creature Comforted

All the Thai food and the Must See TV

Yeah

Keeps ya subdued and unable to breathe

Yeah

Chase a carrot stick in your Volkswagon Bug

Yeah

All the limp dicks and their virility drug

And the Chinese pugs

Yeah

Hey, come on, we're all defanged and declawed

We're creature comforted

Don't need anything, we all get what we want

And we want...

Hey, come on, we're all defanged and declawed

We're creature comforted

Don't feel anything, now there's nothing at all

And you're tucked in tight, you sleep alright, and you won't bite

We're all defanged and declawed

It's your satellite, and your DVD

Yeah

It keeps you inside, it keeps you off of the street

Yeah

And the payments: payments keep you alive

Yeah

Cell phone nation, they get you one at a time

America Online

Yeah

Hey, come on, we're all defanged and declawed

We're creature comforted

Don't need anything, we all get what we want

And we want...

Hey, come on, we're all defanged and declawed

We're creature comforted

Don't feel anything, now there's nothing at all

Like dominoes in neat little rows, you are what you own

Yeah

Hey, come on, we're all defanged and declawed

We're creature comforted

Don't need anything, we all get what we want

And we want...

Hey, come on, we're all defanged and declawed

We're creature comforted

Don't feel anything, now there's nothing at all

And it keeps you down in Surround Sound until you drown

We're all defanged and declawed

Declawed

Declawed

We're all defanged and declawed

Declawed

Declawed
