

# Local H, Half life

Three, four  
Half-life, welcome the worst  
Born to your station and your station's a curse  
Daddy says "wait and see"  
Ain't seen the sun since 1973  
Half-life, fake your claim  
Fallin' asleep and wakin' up is the same  
Half alive and half dead too  
Work is for suckers and the sucker is you  
You know the lies they tell are told until they're true  
You know they hardly ever (Yeah, I'm fallin fast)  
You know they hardly ever (I'm not gonna last)  
Ya want it, they got it  
It's just circumstance  
You know they hardly ever give a leper a chance  
Half-life (x3)  
Or no life at all  
Half-life and all fucked up  
You're born with nothing, better make it enough  
Pat on the back, kicked in the teeth  
Alcohol will be your only relief  
You know the lies they tell are told because of you  
You know they hardly ever (Yeah, I'm fallin fast)  
You know they hardly ever (I'm not gonna last)  
Ya want it, they got it  
It's just circumstance  
You know they hardly ever give a leper a chance  
Half-life (x3)  
Or no life at all  
You know the lies they tell are told until they're true  
You know they hardly ever (Yeah, I'm fallin fast)  
You know they hardly ever (I'm not gonna last)  
Ya want it, they got it  
It's just circumstance  
You know they hardly ever give a leper a chance
