

Local H, No More

You took mine away from me
You made me say please
You gave me those feelings
That made me get down on my knees
No no no
No more (x4)
The way of today
The way of today
You make me feel bad

And you take my defenses away
Nah, hell no
No more (x4)
You don't want my love
You don't want my heart
You want my respect,
But that's not what you'll get when you tear me apart
No more (x20)
