

# Locust, Siphoning Projectiles During Selective Amnesia

Transplant of a phantom limb seems like a good deal  
(Considering it's bribery) highway robbery.  
Though I'd adamantly refuse the airtight reflex restraints.  
A scabby Achilles tendon for your placebo pills, your last offer?  
Okay buddy, you got yourself a deal.  
Endorphins and dopamine calculated and disturbing.  
Ambassador for the susceptible swallowed the wrong fallacy
