

Loft, Life Is A Game

Life is a game, life is a fight
Forever in love you're on the run
Life is a game, life is a fight
You teach me what's right and you teach me what's wrong
Wherever I go, whatever I do
All that I want is to be with you
Life is a game, life is a fight
Forever in love we're singing the song

Life is a fight and life is a game
So hang on it here and don't complain
Sometimes sun and sometimes it rains
So many walls like I can't explain
So keep on jumping right off the lane
Life goes on like a famous brain
If you try... don't give up... right once again
Watch out... out who's got the lane
Don't stop move... reach...
...move frame by frame
I...
If you don't try you have no one to blame

... lose game
Don't get too wild when you can't pretend
Really.. life is a game

Fight for the things that money can't buy
Reach for the lib... and the...
Fight that so don't ask me why
Get off so shy
... the time goes by
See the thing...
But I've never heard... sky
... rasta...
Cosmic fight so make me fly high
Send all requests ...
I fight and I fight and I wait for a ply
Take a more look you'll see...
Take a ...
No ...
Life... Don't let it pass by
