

Lola Ray, Astronaut

I like your hair a lot.
It reminds me of an astronaut.
Take it from me baby,
what I need you've got.
I like to ride on bikes and tour the west side,
but I don't know.

You're on your way to work
And I'm still taking a nap
All the way across the United States
And you still make me laugh

I haven't got a car
Atleast one that'll take me that far
Tiny photographs will have to do for now

I like your hair a lot
It reminds me of an astronaut
Take it from me baby
What I need you've got
