

Lola Ray, Bonus Track

I like your hair alot
It reminds me of an astronaut
Take it from me baby what i need you've got

I like to ride on bikes and tour the west side
But i don't know where the plan will go
Will it go now

Your on your way to work
And im still taking a nap
all the way across the united states and you still make me laugh
i havent got a car
least one that'll take me that far
tiny photographs will have to do for now

I like your hair a lot
It reminds me of an astronaut
Take it from me baby what i need you've got
