

# Lolita, Miracle Tonight

Show me you feel okay  
Show me you feel okay  
Tonight (Tonight...)  
To fly (To fly...)

Tell me honey what you dream tonight  
When we're together  
Show me you feel okay  
Tell me you're here to stay

'Cause we know tonight what we need to fly  
Finally you'll be my dream night and day

It's a miracle tonight  
Feel you standing by my side  
See me share in all your love  
It's a miracle

It's a miracle tonight  
When your time is passing by  
We can say to the world  
It's a miracle

In your body I can see the joy  
We'll live forever  
Part of your mind and soul  
There is a magical

And we know tonight what we need to fly  
Finally you'll be my dream night and day

It's a miracle tonight  
Feel you standing by my side  
See me share in all your love  
It's a miracle

It's a miracle tonight  
When your time is passing by  
We can say to the world  
It's a miracle

Tell me honey what you dream tonight  
When we're together  
Show me you feel okay  
Tell me you're here to stay

Tonight...  
To fly...

"It's a miracle tonight  
Feel you standing by my side  
See me share in all your love  
It's a miracle"

It's a miracle tonight  
When your time is passing by  
We can say to the world  
It's a miracle

It's a miracle tonight  
Feel you standing by my side  
See me share in all your love  
It's a miracle

It's a miracle tonight  
When your time is passing by  
We can say to the world  
It's a miracle
