

# Lollipop, Don't Leave Me Now

Co-coming dark too dark  
And nothing else to share  
It's time to kiss-goodbye  
And you're on your way  
I've made a mess you say:  
A stupid thing to do  
Has been so wrong but hey  
This time you win I lose

And now  
You're giving up baby  
Somehow  
I'm going crazy

Don't leave me now  
I've made a mistake  
I'm not feeling so proud  
Baby please let me say  
Don't leave me now  
If you turn away  
I'll be never the same  
Baby please let me say  
...NO don't leave me now

I meant it when I said  
you were all my life  
I'm a fool I should  
Have been with you that night  
If it's a crime to sin  
I've lost at this game  
Has been so wrong but hey  
This time you win I lose  
And now  
You're giving up baby  
Somehow  
I'm going crazy

Don't leave me now  
I've made a mistake  
I'm not feeling so proud  
Baby please let me say  
Don't leave me now  
If you turn away  
I'll be never the same  
Baby please let me say  
...No don't leave me now

Where are times I used to cry  
upon your shoulder  
where are times I used to smile  
and laugh with you  
If you go away  
You're gonna take with you  
Ot the very part of me my baby  
What I have to do  
For you to change your mind....I need you so

Don't leave me now  
I've made a mistake  
I'm not feeling so proud  
Baby please let me say  
Don't leave me now  
If you turn away  
I'll be never the same

Baby please let me say  
....NO don't leave me now
