Lollipop Lust Kill, Everything I

It seems I like it when you cry
My codependant lullaby
Ill only play when I make the rules
Your mental weakness is my obvious tool
It seems I like it when you cry
So let me inside

Im alone with you and you're afraid of me Tightly close your eyes and pray you just can't see Everything, I; everything, I Everything, I; everything, I

Blow out the candle, save the light
One last dead breath it ends your night
Hold out your hands and pray not to die
Grow your little white wings and let your angel fly
Blow out the candle save the light
And let me inside

Im alone with you and you're afraid of me Tightly close your eyes and pray you just can't see Everything, I; everything, I Everything, I; everything, I

Everything I want from you

All the lies that you beleived Everything I misconstrue Is everything you cant conceive, yeah

Can you see me here alive with your own two eyes Can you see me here alive?

Please wont you tell me why you died And within the deadness was their light Where are you now and how does it feel Is there a soul or is our mind the real Please wont you tell me why you died And let me inside

Im alone with you and you're afraid of me Tightly close your eyes and pray you just can't see Everything, I; everything, I Everything, I; everything, I

want need

Everything I want you to see Everything I want you to be
