

# Lollipop Lust Kill, Ted

Girl I want you, more than anything  
You look to the left, you look to the right  
You look all around, there's no help in sight  
You're all alone in my crazy world  
My sweet defenseless little girl

Girl I want to, rub my libido all over you  
You look to the left, you look to the right  
You look all around, there's no help in sight  
You're all alone in my crazy world  
My sweet defenseless little girl

Girl, you, you better run away, before I make you  
Stay, stay, stay, stay, stay, stay!

These wounds I tear into you deep and real  
The scars left behind burn to reveal  
These wounds I tear into you never heal

Well I see you walk in the park but you don't see me  
Tailing you in my car but you don't notice  
Follow you to your house peek in your window  
I want to be with  
See you walk in the park but you don't see me  
Tailing you in my car but you don't notice  
Follow you to your house peek in your window  
I want to be with you  
I'm going to be with you  
You will be mine
