

# Lolly, Dance In The Rain

The rain is falling, look it's pouring  
And I can hear it calling our names, oh oh  
Can you see it you must hear it  
Let's go outside before I go insane

## Bridge

You know that this  
This is something you shouldn't miss  
The rain is like a gentle kiss  
Let it wash all over you  
You know you want to

## Chorus

Come on out and dance in the rain  
And we'll get soaking together  
Let it fall from the heavens  
Come on out and dance in the rain  
Till we get get wetter and wetter  
tell me what could be better?

I almost taste it - don't wanna waste it  
I wanna catch every drop in the air, oh oh  
Why are we waiting and hesitating  
Come on let's go before it's too late

## Bridge

You know that this  
This is something that you shouldn't miss  
The rain is like a gentle kiss  
Let it wash all over you  
You know you want to

Repeat chorus to fade
