

# London Boys, Requiem

Never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough.  
I love you - I love you !

Eat  
kiss  
cry a lot  
and the whole world's living in a parking-lot  
because you know I'd be the guardian angel of our destiny.  
I said: Hip man

rise up  
and the rain was falling in the papercup  
because you  
girl and me  
we'll climb the mountain of eternity.

I love you - I love you !  
You're the love of my life  
my life  
my life

and I won't let you go now  
this is a requiem for: Love  
our love  
our love is a miracle now.  
Like a thief in the night  
the night  
the night  
I was begging for love  
this is a requiem for; Life has set me free  
taking a chance on you and me  
this is the story now  
the story of our love.

Never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough  
never gonna get enough.  
I love you - I love you !

I said: 3-2-1 go  
we quit the party  
let the fire glow  
because I feel the need  
the burning fever that is guaranteed  
to make you feel twice as nice  
and light the magic in your angel-eyes  
just you

girl  
and me  
the guardian angels of our destiny.

And I love you - I love you !  
You're the love of my life  
my life  
my life  
and I won't let you go now. ...  
You're the love of my life  
my life  
my life

and I won't let you go now. ...
