

London Grammar, America

And I hope that you find it, all that you need
I hope that you stay young and wild and free
You'll have America

And I hope that you're better than all of your friends
I hope that they hold you until the end
You can have America

But all of our time chasing America
But she never had a home for me
All of our time chasing a dream
A dream that meant nothing to me

And see where i found you
Where they all lay
All of the greatest
They are here to stay
Here in America

And i hope that you find
All that you are
I hope that it sets you up high
In the heart of America

But all of our time chasing America
But she never had a home for me
All of our time chasing a dream
A dream that meant nothing to me

And all the parties they fade
And yes!, my looks, they'll go away
I'll just be left here in America
But she never had a home for me
