

London Grammar, Lose Your Head

I need to learn
When this thing called love
When it's a mirror baby
Czn tou see
All thse parts of me
Broken across the world

I need o find
Some kind of piece of mind
It's a demon baby
When it comes
Like my oldest froend
Have you got a friend
In the night , you say

You miss me now
When a way to lose your head
You say
You miss me now
When a way to lose your head
When a way to lose your head
When a way to lose your head
When a way to go to bed
When a way to get Ahead
When a way to go to bed
With those thoughts inside your head
When a way to go to bed
When a way to go to bed

There's a place
I see it in your head
Full of evil baby
Can you see
All those parts of me
Broken across the world

You say
You miss me now
When a way to lose your head
When a way to lose your head
When a way to lose your head
When a way to go to bed
When a way to get Ahead
When a way to go to bed
With those thoughts inside your head
When a way to go to bed
When a way to go to bed
