

# Londonbeat, It's In The Blood

It's in the blood  
Good times that's when you feel  
You're something special in the family wheel  
Bad times they hurt so much  
The reason for so many people losing touch  
I am your next of kind  
You see we're family underneath the skin  
Whatever crime we're guilty of  
We're all in need in need of a mother's love

It's in the blood all about the family  
It's in the blood  
It's in the blood all about the family

Sometimes we'll disagree even so we are family  
Otherwise the strength remains the link that binds  
We'll never ever break the chains  
We walk our separate ways  
Chasing dreams dreams and better days  
I'm with you and you're with me  
We all are branches branches on the family tree

It's in the blood all about the family  
It's in the blood  
It's in the blood all about the family

It's in the blood all about the family  
It's in the blood  
It's in the blood all about the family

We fight our separate wars and we stop  
Stop and count the cost  
Your life connects connects with mine  
That's how it's been since the start of time

It's in the blood...

We all are the next of kind  
We're all the same underneath the skin  
I'm with you and you're with me  
We all are branches branches on the family tree

It's in the blood...
