

Lonely Boys, I Wanna Be With You

I wanna be with you all day
I wanna be with you all night
I wanna be with you all day
I wanna be with you all night
I've never felt so good about it
I think of funny things to do.
Girl, I love the way you're talkin',
Your clothes, your biker-boots.
I wanna stay with you all day
I wanna stay with you all night
I wanna stay with you oh yeah
I wanna stay with you all right!
Babe, I wanna join you shopping
together we can grab a bite.
I'll follow you to that painting
you talked about last night.
Let's take a ride in the countryside
or watch the lions at the zoo.
Let's take a walk by the waterline
and throw some pebbles to the blue...
I wanna sleep with you all day
I wanna sleep with you all night
I wanna sleep with you oh yeah
I wanna sleep with you all right!
Hey, who brought this terrible weather?
Let's stay in bed all day long
and watch a Peter Lorre-movie
by tea-time he'll be gone (and we're alone...)
Yes, we're alone
We're all alone
I wanna be with you.
