

# Lonestar, Shake That Thing

Album: Live 2003

Those neon signs are burnin' bright tonight  
They got the music cranked up  
Gettin' down with some ??  
I'd like to shake the hand of the man  
Who designed those rocky Janes  
You oughta see them on the dance floor  
Shake that thing.

Shake that thing  
Oh, let the music move you  
Come on and shake that thing  
It's something you can groove to  
Shake it left, shake it right into the middle  
Clap your hands, stomp your feet with a wiggle  
Listen to the words and sing  
Shake that thing.

It's like a little kid in a big old candy store  
Watchin' those sweet things slidin' across the floor  
It's a honky tonk playground  
And I've found more swings than I've ever seen.

You oughta see them on the dance floor  
Shake that thing.

Shake that thing  
Oh, let the music move you  
Come on and shake that thing  
It's something you can groove to  
Shake it left, shake it right into the middle  
Clap your hands, stomp your feet with a wiggle  
Listen to the words and sing  
Shake that thing.

Oh what I wouldn't give to be your bodyguard  
I wish I had a swing like that in my backyard.

Shake that thing  
Oh, let the music move you  
Come on and shake that thing  
It's something you can groove to  
Shake it left, shake it right into the middle  
Clap your hands, stomp your feet with a wiggle  
Listen to the words and sing  
Shake that thing.

Yeah, shake that thing (shake that thing).  
Yeah, shake that thing (shake that thing).  
Yeah, shake that thing (shake that thing)...
