

Lonewolf, Black Rainbow

See them lying on the seats in the park
living alone is a life in the dark
their blankets are the News of yesterday
they can't go on another way

Bridge: With their homeless hearts
they have no place to go, to go

Refrain: Black Rainbow is their friend
until the day, when life will end
Black Rainbow in the night
you know it isn't right

When it's cold and you are going home
you can see them all alone
and if you look at their lives
you can see it's a fight to survive

Bridge / Refrain

So many things for them to do
can't other people think so, too
if Black Rainbow comes to them
what will be done then

Bridge / Refrain
