

Lonewolf, Joint Song

They say that Lonewolf do not do Reggae
but they don't have not heard this song yet
we will not sing about the Buffalo Soldier
'cause we're not in the Heart of America

Refrain: Once I dreamed About the sunshine in jamaica
and still my visions go on till I wake up

Let's smoke for peace together my friend
and we will sing this son till the bitter end
after this song we'll turn out the light
and I hope you all have a nice orgastic night
Refrain

I tell you Jamaica is not far away
you feel the Rastafari everyday
the sun goes down and the darkened night is coming
Party-ty people, come on, the party is running

Refrain
