

# Lonewolf, Only A Dream

Every night I'm caught inside a dream  
every night it's just you and me  
We hold each other's hands as we whisper  
our names in silence, softly drowning  
but it's only a dream

Every night I can see your blue eyes  
every night I tell myself these lies  
that we are together and we're bound forever  
but when I wake up I start to cry  
'cause it's only a dream

Refrain: It's only a dream, so I try to forget it  
but whatever I do, no, I just don't make it  
'cause you are all I ever needed  
there's this feeling in my heart, I can't beat it  
You are the one I've fallen in love with

Every time I see you it's so hard  
every time I wish we'll never part  
But you don't love me, maybe you don't know me  
but I won't give up my hope that it won't be  
any longer a dream
