

Long Beach Dub Allstars, Kickdown

kick me down is all i hear now adays
Break me off you can say it in a thousand ways
give me this, give me that as if you feed on greed
lyin' to kick it just to smoke up all my weed
dri
nkin my brew and gettin drunker than me
tell me what is it that you wantin from me
aint nothin free i had to work to get whats comin to me
open your eyes and realize that this is somethin' to see
kick down is what they talk 'bout today
your in my arena but you dont wanna play
its how you move and not what you say
when the cats away the mice will play
cause im remembering the days when i didnt have nothin
livin in the ghetto east side ill tell you something
from the life ive lived and what ive seen
nothing from nothing means nothing
so you better have somethin
if you wanna kick down from me
so lets move to the side and make this discrete
take a look at my numbers to see if they meet
up with your stylin to fill up your streets
i dont who you are but i guess you know me
stop thinking you can come up so easily
kick me down is all i hear now adays
Break me off you can say it in a thousand ways
give me this, give me that as if you feed on greed
lyin' to kick it just to smoke up all my weed
drinkin my brew and gettin drunker than me
tell me what is it that you wantin from me
aint nothin free i had to work to get whats comin to me
open your eyes and realize that this is somethin' to see
what is it that you beggin me for
ive got it all but now you cant have it
ive learned from what ive earned
and established my status as a job to manage
and to my advantage i will stand ground
shake your hand like the realest man around
and your town kickin you down for a minute
but everything your life have consequences
begining only to end it
as if it was intended
but you still have to take to the streets and represent it
for each one to step off a street and represent it
so you can sleep for each concequtive second
thats independent from each hour
i speak as if i was the only source of power
keeper of keeper thought with knowledge in my concious tower
i read the fate like characters in ficticious novels
and yet between the lines more follow
a most hollow way of life to model
for our street investin stress in a bottle
nah your better off wishin a lotto
kick me down is all i hear now adays
Break me off you can say it in a thousand ways
give me this, give me that as if you feed on greed
lyin' to kick it just to smoke up all my weed
drinkin my brew and gettin drunker than me
tell me what is it that you wantin from me
aint nothin free i had to work to get whats comin to me
open your eyes and realize that this is somethin' to see
