

# Long Since Forgotten, The Getaway

Pages of your catch phrases in my head.

Adding means to ends of things unsaid.

Rearrange your living space, accommodate mistakes you're making,  
and backs you're breaking.

Rest assured that consequences will catch up to you.

We all watched as reason left your head.

Barricaded words you should have said.

Give your thoughts to someone else  
as you make believe you have nothing left.
