

Longwave, My Best Kept Secret

I know you are my best kept secret
That's kept away
You know I don't need to see the light
I wanna take what you give me to feel alright
You know I don't mind at all
I'm gonna try and brake this feelin' in my head
You know I can't break out of my mind
I wanna watch all this city go up tonight
You know I don't mind at all
But if you're scared
You don't have to be
Because the ending is so clear
And when I'm down
I'm on knees
And I don't need to see the light
I know you are my best kept secret
That's kept inside
And I don't need a drink to get me by
But in my new city so cold and bright
You know I don't mind at all
But if you're scared
You dont have to be
Because the ending is so clear
And when I'm down
I'm on my knees
And I don't need to see the light
